

MD. INAMUL HUDA RIJU
Graphics Designer

PORTFOLIO

Intro

Hello, my name is Md. Inamul Huda Riju. I want to be a digital artist and a Graphics Designer. I love drawing, painting, craft making, illustrating, and digital arts. I have learned most of the fundamentals of the graphics design tool of Adobe Suit. I have also taken training in Basic and Advance graphics designing in some training institutes.

I have experience working in other fields. However, to be a designer is actually my dream, So now, despite all the obstacles I have put all my efforts to help my dream come true. I have been practicing to develop my skill and making some progress. I have also worked for some of my known friends and for their local clients and small startup small business company.

Here I present some of my contents and creatives as my portfolio. Have a look.

WORK PROCESS & SKETCHING

I love to make content. From the Idea of imagination and trending story. Basically I work in Adobe illustration and photoshop as well. Its a great feelings to give your art and imagination a digital looks. And I love it very much.

Thats all for now
